How to Play Peer-to-Peer Poker

The Objective

Win chips by either:

- Having the best five-card poker hand at showdown, or
- Getting all other players to fold before showdown.

Texas Hold'Em

The Basics

- Each player receives 2 private (hole) cards.
- 5 community cards are dealt face-up on the table.
- Players make the best possible 5-card hand using any combination of their hole cards and the community cards.

Betting Rounds

1. Pre-Flop – After players receive their hole cards.
2. Flop – Three community cards are dealt.
3. Turn – A fourth community card is dealt.
4. River – A fifth and final community card is dealt.

Showdown

If two or more players remain after the River betting round, they reveal their cards and the best hand wins the pot.

Pot-Limit Omaha (PLO) 4/5/6

The Basics

- Each player receives 4, 5, or 6 private (hole) cards, depending on the Omaha variant being played.
- 5 community cards are dealt face-up on the table.
- Players must make their hand using exactly **2 hole cards** and exactly **3 community cards.**

Betting Rounds

1. Pre-Flop
2. Flop
3. Turn
4. River

Showdown

If two or more players remain after the River betting round, they reveal their cards and the best hand wins the pot.

Pot-Limit Betting

In PLO, the maximum bet or raise is limited to the current size of the pot.

Important Rule

You must use:

- 2 cards from your hand, and
- 3 cards from the community cards.

This is different from Texas Hold'em, where any combination of hole cards and community cards may be used.

Player Actions

Fold - Discard your cards and take no further part in the hand.

Check - Pass the action to the next player when no bet has been made.

Bet - Place chips into the pot.

Call - Match the current bet.

Raise - Increase the current bet.
